

12-color pigtail fiber

Each strand is individually color-coded and features precise connector termination for easy splicing and integration. With fan-out tubing for additional protection, this 12 core fanout fiber pigtail ensures ...

Fiber optic pigtail is a tight buffered fiber cable with connectors pre-terminated on one end and exposed fiber on the other. The exposed end could be stripped and fusion spliced to a single or multi-fiber trunk.

This product has multiple variants. The options may be chosen on the product page.

12 fibers optic pigtails are ideal for fusion splicing the required fiber connectivity for structured cabling systems including Data Centers, Broadband CATV, PON (Passive Optical Network), WDM or DWDM ...

FS 12 fibers pigtails with LC SC connectors feature color-coded or bunch design for various fiber splicing applications. 100% end-face, 3D interferometer, IL & RL tested.

The Pigtail are available in both single and multimode versions with either APC or UPC polish types. Our fiber pigtails come with a partial outer jacket protecting the Tight/Loose buffers from damage.

Fiber Type Singlemode; Connectors SC/APC; 1.5M 12 strands color coded. Strict factory testing ensures good repeatability and high stability. This fiber optic pigtail adopts high quality ceramic ferrule, with ...

Traditional Fusion Splice-On Connectors with pigtails provide factory-polished performance with field-termination convenience within harsh environments. Mass fusion splicing can fuse up to all 12 fibers ...

CO-NET produce and supply 12 core colorful pigtails with SC, LC, FC and ST connector. With the High-quality ceramic ferrules, it has good conformity and low Insertion Loss.

This pigtail set consists of 12 single-mode fibers, each in different colors, allowing for easy installation and management. All pigtails offer low insertion loss and high return reflection performance, ...

12-color pigtail fiber
