

80m Multimode Fiber Armor

Plenum Armored Fiber Cable is our most popular choice for its versatility and can be used in riser or general-purpose applications as well. The MC cable is tough and durable to ensure that rodents can't ...

Overview: Fiber optic armored patch cords are robust fiber jumper cables with built-in protective metal tube layers that safeguard optical fibers against mechanical damage, impact, and rodent attack.

These multimode fiber optic patch cables have all of the features of our standard cables but are built with two layers of armored furcation tubing, making them both light tight and extremely durable.

Built with a rugged steel armor layer, these cables are engineered to resist crushing, impact, and rodent damage--without the bulk, weight, or stiffness of traditional armored cables.

Browse our armored fiber optic cables and patch cables today. We carry OM4 and OM3 fiber optical jumpers, 50/125 10G, 40G, 100G, LSZH rated and more.

This 80M OM3 Armored LC-LC Duplex Multimode Fiber Patch Cord is built for 10Gbps high-speed data transmission in data centers, server rooms, industrial networks, and harsh ...

Customized armored fiber optic patch cords provide extra crush resistance and protection for use in harsh environments, data centers, and IT networking.

Product Summary: 2 Core Armor Multimode Fiber Patch Cord (80m OM3 LC-LC) From JIELIUSHENG

8-core multi-mode configuration for data transmission and connection Suitable for both indoor and outdoor applications, ensuring reliable performance in a variety of environments
