

# Compatible Low-Noise Single-Fiber Bidirectional Japanese Supplier

This product is an improved version of the dual-fiber 100Gb/s ...

This product is an improved version of the dual-fiber 100Gb/s transceiver that uses two fibers, and it achieves bi-directional data transmission in both the upstream and downstream ...

The LightSpeed SFP-1G-BIDI-WA/WB is a matched pair of Bi-Directional single strand fiber Gigabit Ethernet / 1.25G rate SFP transceivers using a 1310nm wavelength laser and a 1550nm photo-diode ...

We manufacture a range of bidirectional SFP transceivers for applications supporting data transfer rates of 10/100/1000Mbps, 100Mbps, 1000Mbps, and 10Gbps. They are compatible with standard SFP ...

Hot-swappable and compatible with various networking equipment for effortless upgrades. Meets stringent quality standards and is built to withstand diverse environmental conditions.

It can simultaneously and synchronously transmit 1 channel of audio over a single fiber optic cable without distortion and with high quality. The optimized design of the bidirectional audio optical ...

Discover BiDi optical transceivers designed to transmit and receive data over a single fiber, maximizing existing infrastructure. These solutions help increase bandwidth capacity, reduce fiber requirements, ...

The 25G BIDI SFP28 transceivers are designed to enable bi-directional 25G serial optical data communications using either 1270nm/1330nm wavelengths. These modules are ideal for use in 25G ...

It adheres to standards for 1.25 Gigabit SFP Ethernet fiber connectivity, and is cost-effective in providing changeable Gigabit Ethernet fiber optic interfaces to switches and media converters equipped with a ...

These hot-swappable single fiber transceivers provide data rates of 10G and distance up to 160 kilometers. Available to support a single strand bidirectional enabled network for SFP, SFP+, XFP, ...

FTLX2672D327, FTLX2672D333 RoHS-6 Compliant 10Gb/s 30km Single Mode Bidirectional SFP+ Transceiver et links up to 30km over a single\_x005F\_xFFFE\_strand Single Mode fiber. This capability ...
