

Congo Wholesale Computer Room Cold Aisle 1U

Whether implementing hot-aisle or cold-aisle containment, we are dedicated to delivering reliable, precisely fitted products. WindChill Engineering launched in 2012, building on more than four ...

Cool Shield(TM) products provide customers with versatile, turnkey aisle containment systems for new or existing critical spaces. Our offerings range from a single row in a server room to entire data center ...

Effective aisle containment is critical to maintaining peak data center cooling efficiency. By creating a physical barrier between cold supply air and hot exhaust air, containment solutions prevent airflow ...

Our modular containment solution and line of aisle airflow management products are specifically designed to block airflow, ensuring hot and cold aisle separation.

Essentially creating a room within the aisle, the system helps keep hot and cold air separated to make existing air conditioning systems in data center and edge-of-network installations more efficient.

We offer both motherboard and passive backplane rack mount computers built using 1U, 2U, 3U and 4U height rackmount cases. We are a full service industrial computer provider.

PortaFab's containment partition walls can be arranged in a variety of configurations in order to maximize energy efficiency when designing hot and cool aisle arrangements or to manipulate ...

We provide the best solution to eliminate hot and cold air from mixing between aisles regardless of rack configuration and other design challenges. Whether it's live environment or new construction, ...

Sliding Doors offer data centers aisle-end containment in just minutes and without the need for contract labor. The one-tool design allows for quick and easy installation, removal, and re-installation with ...

With support for high power loads of up to 235kW and compatibility with various power supply standards, these racks ensure reliable performance. The product is made from SPCC cold-rolled steel, powder ...
