

Drop optical cables lead into the subscriber's home in the last section of the FTTH (Fiber to the Home) network. These cables are suitable for processing and duct installation.

HEC-Holland has a broad range of optical fiber cables for more challenging conditions. View our optical fiber cables products!

Ideal for telecommunications, data centres and networking applications, our fibre optic cables are available in single-mode and multimode configurations to meet the specific needs of your system.

The fiber optic cable is drilled underground from the property line to your home. A hole is made at the facade of your home, the size of a paving stone, where the fiber optic cable emerges above ground.

At Fibremax, our production process ensures that we get the highest efficiency out of every fiber, resulting in cables with exceptional efficiency. Our FibreMax cables are custom designed, lightweight ...

A network cable is used between the modem and various devices such as television and computer to transmit the signal. At networkkabel we have fiber optic cables with SC, ST and LC connections.
