

# Electrical box distribution box aviation plug

Falken BusBox provides aircraft builders with 30 robust electrical circuits, each capable of handling up to 10 amps, organized conveniently into two buses with 15 main circuits and 15 avionics circuits.

Our electrical contactors are engineered to handle high current loads and perfect for use in HVAC, power supply, motor controls, aerospace, and hybrid, electric, and fuel cell vehicles.

The Vertical Power VP-X Electronic Circuit Breaker System is a separate product that takes power from the PPS and intelligently distributes it to all the electrical devices on the ...

BusBox is a complete power distribution system for a light aircraft. It packs 30 circuits into a 7" x 4" (17.7cm x 10cm) package that can be mounted virtually anywhere. The first 15 circuits are ...

The products are now widely used in mechanical and electronic complete sets, electrical products, household wiring and other wiring equipment. They are sold all over the country and exported to ...

Connection box, for 400 Hz aircraft servicing. 115/200 Volts, 170 Amps, 3 phase, 4 wire, Spraytight. For distribution of 400 Hz power from the power supply to the portable cable used to service the aircraft.

CorePower®; Electronic Circuit Breaker Units (ECBUs) used in power distribution systems have the unique capability to be conveniently located throughout aircraft. Smaller and lighter than their ...

Distribution Box 5-11-1430 (NSN) National Stock Number 6110-01-026-8164 Federal Supply Classification 6110 Electrical Control Equipment Item Name Code 19735 Schedule B Code ...

The products are now widely used in mechanical and electronic complete sets, ...

PowerLoad™ is a high-vibration, high-temperature resistant connector series designed for high altitude aircraft power distribution applications.

The P28 connector comes with fixed electrical contacts, providing a cost-effective connection system to power aircraft. Suitable for a wide range of composite, 3 or 5 core cable types.
