

In this paper, taking the IIP in the power generation equipment industry as the research object, the background, architecture, and implementation process of the platform is described, and an...

Hitachi Energy, a global leader in electrification, today announced it was recognized as a Major Player in the IDC MarketScape: Worldwide Industrial Internet of Things Platforms and ...

The IDC study evaluates the vendors in the Industrial Internet of Things (IIoT) platforms and applications for energy in 2025. It highlights the importance of data-driven decision-making, predictive ...

In this paper, we propose the redefinition of EI, based on a comprehensive literature review, some latest trends and driving forces in the global energy industry, as well as its ...

China's latest efforts in advancing the development of the industrial internet will inject new vitality into the convergence of advanced manufacturing and digital technologies, and buoy the ...

Schneider Electric, the global leader in the digital transformation of energy management and automation, is revolutionizing grid operations with its launch of the One Digital Grid Platform, an ...

To address this research gap, this study examines how platform capabilities drive dual-chain integration through a configuration analysis of 46 IIP cases.

Schneider Electric, the global leader in the digital transformation of energy management and automation, is revolutionizing grid operations with its ...

For industrial internet platform providers, this study offers two managerial implications. First, empirical evidence confirms that low-carbon services not only boost manufacturing clients' low ...

Examples of intelligent infrastructure are emerging in China, from 5G and industrial internet platforms to integrated national computing networks, it has accelerated industrial ...

The Research of Development of New Energy Industrial Internet Platform Published in: 2023 IEEE 2nd International Conference on Electrical Engineering, Big Data and Algorithms (EEBDA)

Energy Industrial Internet Platform
