

# Epon device testing

The PPM1 is a more compact and highly portable solution ideal for simpler PON installations and day-to-day field-testing tasks. The ...

FOH-100 Series G/EPON Tester is an ideal tool for field technicians to deal with G/EPON network correct installation, activation and maintenance. It can be series connected anywhere in your PON ...

With instant-on test capabilities, results are displayed in seconds providing ultra-fast detection of problems. Both products can test legacy BPON, EPON, GPON, Video and next generation PONs ...

Building reliable PON requires thorough test to assure networks are built as per their design and to prove end build quality in order to meet the tight optical budgets required for successful operation.

The XGS-1577 XGSPON Meter is a high-performance testing tool designed for accurate and simultaneous measurements of upstream and downstream PON ...

The XGS-1577 XGSPON Meter is a high-performance testing tool designed for accurate and simultaneous measurements of upstream and downstream PON wavelengths in optical networks.

Power on the FX120/FX120 Lite test set. The unit connects to any network it finds, recognizes the type of network and performs tests using built-in thresholds that follow IEEE protocols and standards.

It tests and compares the functionality of OLTs and ONUs and verifies the standard compliance and interoperability of 10G-EPON products from different vendors. It is a powerful tool for telecom ...

The PPM1 is a more compact and highly portable solution ideal for simpler PON installations and day-to-day field-testing tasks. The PPM1 is compatible with multiple services, including GPON, EPON, XGS ...

TEKCN TC-105 is a handheld instrument that integrates FTTx/PON optical power testing, suitable for the acceptance, opening and maintenance of EPON, GPON, and 10GPON (XGPON/XGSPON) networks.

It dynamically adjusts the testing parameters and automatically performs multiple measurements to achieve the optimum test results. All the information gathered is displayed as a single icon-based ...
