

The PEM-400 is an instrument developed for high-volume testing of the polarization extinction ratio (PER) of polarization maintaining (PM) components such as fiber array units (FAU) and external ...

The ERM2xx Extinction Ratio Meters measure the polarization angle and extinction ratio (ER) of polarization-maintaining (PM) fibers and are useful in alignment applications such as ...

It is a well-respected manufacturer which specializes in designing, R& D, manufacturing and selling a full range of Optical Test & Measurements as well as passive components to domestic and overseas ...

The ER2200 can measure extinction ratio, polarization angle, and optical power quickly and with high accuracy. ER2200 is equipped with real-time test software, 50dB PER dynamic test range, and the ...

OZ Optics" Polarization Extinction Ratio Meter allows one to quickly measure the output extinction ratio of light from a fiber. A rotating polarizer measures the extinction ratio (ER) and the orientation of the ...

It can be used to measure the extinction ratio of polarization preserving optical fiber, the extinction ratio of polarization preserving optical device, the extinction ratio of polarization preserving connector, the ...

Product Overview PER8605 Polarization Extinction Ratio Tester is a professional equipment for polarization extinction ratio (PER) testing of polarization preserving devices, polarization testing of ...

The optical power meter single/double channel extinction ratio meter (extinction ratio tester) can independently test polarization extinction ratio, optical power, digital zero, digital calibration, manual ...

One parameter, extinction ratio, is used to describe optimal biasing conditions and how efficiently available laser transmitter power is converted to modulation power.

Demo Video This video demonstrates an easy, fast, and accurate way to measure the polarization extinction ratio (PER) of a bare polarization maintaining (PM) fiber.

Extinction Ratio Tester Intelligent Specifications and Models
