

By choosing our solution, you gain accurate temperature monitoring that supports optimal operation, enhanced reliability, and superior protection of your most valuable assets.

Solexperts performs high precision temperature corrected fibre optic strain measurements and offers a complete service including: Installation on site (e.g. integrated into concrete structures, bonded to ...

Precise monitoring of temperature over long distance in structures and industrial processes. Solifos" fiber optic sensor cables are suitable for measure temperatures in harsh environments where other ...

Recognized as a leading developer and manufacturer of fiber optic temperature sensing and partial discharge monitoring products, providing solutions for a multitude of industrial applications. Cost ...

We use state-of-the-art tools and technologies in the manufacturing of our fiber optic cables. Our products undergo strict quality controls to ensure they meet our high standards.

art photonics GmbH specializes in the manufacture and distribution of fiber optic products such as optical fibers and laser technology for the medical and industrial sectors.

AP Sensing"s fiber optic sensor cables enable real-time, precise monitoring of temperature, strain & acoustics in harsh environments with minimal maintenance.

The Klaus Faber AG is one of the top suppliers for the cable and wiring sector and also offers innovative system solutions in a number of different future-oriented areas.

In Germany, there are many excellent fiber optic cable manufacturers that specialize in manufacturing and supplying various optical cables suitable for different environmental applications.

People for Process Automation offer you solutions and products in flow, level, liquid analysis, optical analysis, pressure, temperature measurement, software and system products

German Dual-Core Temperature Measuring Optical Cable Manufacturer
