

# High-end fiber optic fusion splicing equipment

NYFORS is your innovative supplier of advanced glass processing and optical fiber preparation equipment for high strength and specialty splicing operations.

The new Fusion Splicer Series delivers exceptional speed, ...

The new Fusion Splicer Series delivers exceptional speed, precision, and reliability, providing fiber optic technicians and network installers with industry-leading tools designed to improve both performance ...

Superior and precise arc control is the standard for FSM-100 series models. Every model in the range is highly capable of splicing a range of optical fibers, such as thin and heat-sensitive fibers, large ...

State-of-the-art fiber optic specialty fusion splicers and fusion splicing solutions from FITELE and 3SAE Technologies.

Fiber Instrument Sales has a wide variety of fiber optic splicing equipment such as fusion splicers from AFL, Sumitomo, FITELE, and FIS. FIS also splicing tools and accessories such as cleavers, thermal ...

An expert resource for selecting the most reliable, accurate, and cost-effective fusion splicers in 2025.

These devices align fiber cores or claddings using electric arc technology, ensuring minimal light scattering or reflection, and are essential for high-performance telecommunications, FTTH (Fiber to ...

The Fujikura 90R is a high-efficiency ribbon fiber fusion splicer designed for rapid mass fiber splicing with smart automation and advanced alignment technologies. Ideal for high-density fiber installations.

Fiber Optic Center has fiber optic splicing equipment, including splicers, cleavers, protection sleeves, mechanical splicing tools and more. We distribute fiber optic splicing equipment from Corning, AFL, ...
