

Industrial-grade optical port switch

The Industrial Ethernet Switch is 2x 100/1000Base-X SFP Slots to 8x 10/100/1000Base-T RJ45 Gigabit 10 Port Fiber Switch. It uses IP40 aluminum shell, and supports dual redundant power supply, low ...

Ethernet Switches with fiber uplink ports or all fiber switches, commercial grade, managed and unmanaged and PoE enabled are all available in this section.

An optical network unit (ONU) is an end device in a fiber optic network that converts optical signals transmitted via fiber optics into electrical signals (for use by routers, computers, and other devices), ...

Moxa provides a wide range of industrial Ethernet switches that feature industrial-grade reliability, network redundancy, strengthened security, easy management, and competitive price-to ...

Explore industrial fiber optic Ethernet switches from a direct manufacturer. SFP, single-mode and multimode fiber switches available in unmanaged and managed designs.

Many of our switches support 1 or 2 fiber ports which are advantageous when daisy chain configurations are required. The managed switches in this category provide support for both 100Base and ...

In summary, these industrial-grade Ethernet switches, equipped with robust features, compatibility with various fiber types, and specialized technologies, offer a dependable solution for demanding ...

Unmanaged industrial PoE fiber switch with 10*10/100/1000M RJ45 ports and 2*1000M uplink SFP fiber ports. Port 1-8 can support IEEE 802.3 af/at PoE standard. It can support dual DC redundant power ...

Our switches are built for high network flexibility, cyber security and durability and are suitable for use in mission-critical environments.

Built for space-constrained locations and machine integrations, these compact and secure switches offer full GE ports, flexible port configurations, high-wattage PoE options, and resiliency protocols.
