

National Technology Micro Module

We provide one-stop support for the miniaturization and thinning of electronic devices through bare chip direct mounting technology. Micro Module Technology Co., Ltd. specializes in micro-joining ...

National Technology Inc. | 418 followers on LinkedIn. Your trusted partner for quality printed circuit boards | A high-quality global printed circuit board manufacturing leader in the...

Through facility expansion, process improvement, conservative fiscal management and an assertive capital acquisition plan we have been able to stay abreast of technology advances in our industry.

These modules are metallized (but not solder tinned) on both hot and cold surfaces and they are suitable for mounting with solder or via compression (compression is recommended).

Our two facilities are designed and equipped to deliver bare printed circuit boards on time, every time, to fulfill our demanding customers' requirements, whether it's 10 pieces or 10,000 pieces. Check us out ...

This webcast explains our 'Module (micromodule) DC/DC power products. They are complete system-in-package (SiP) power management solutions with integrated DC/DC controller, power transistors, ...

The Intelligent Micro Module combines sensor and Big Data analysis techniques, and changes traditional fault maintenance into failure prediction and proactive maintenance.

National Technology Co., Ltd. (Nationz Technologies), a leading Chinese semiconductor firm specializing in secure microcontrollers (MCUs), ...

National Technology Co., Ltd. (Nationz Technologies), a leading Chinese semiconductor firm specializing in secure microcontrollers (MCUs), wireless RF modules, and cryptographic chips, ...

TY micro-modules can be developed for a duration of up to 10, 20, or 30 hours, whilst having the flexibility for schools to decide on the most suitable balance of class contact time and self-directed, ...
