Protective relays and devices have been developed over 100 years ago to provide "lastline" of defense for the electrical systems. They are intended to quickly identify a fault and isolate it so the balance of ...

The Multilin 8 Series platform of relays provide advanced management, protection and control for transformer, generator, motor and feeder protection applications.

NR is also reforming the conveyance of AC power over prolong ranges with flexible AC transmission system (FACTS) by improving voltage stability, grid reliability and energy security.

Without adequate protection, key substation components, including transformers and power lines, are susceptible to damage. Protection measures include advanced quick-trip settings, ...

Our control and relay panels are custom-designed and built to meet your exact specifications. Our design teams use 3D engineering software to ensure each step of the manufacturing process meets ...

ABB's Relion family of protection and control relays for primary distribution offers a wide range of products for protection, control, measurement and supervision of power distribution systems for IEC ...

We are approved local manufacturer for Protection Relay and Control Panels up to 380kV Substation with National Grid Saudi Arabia, Saudi Electricity Company ...

Numerical relays are based on the use of microprocessors. The first numerical relays were released in 1985. A big difference between conventional electromechanical and static relays is how the relays ...

This document provides a list of Approved Grid Protection Relays (GPR) for embedded generation systems to comply with the IEC Standards and ANSI/IEC device functions as outlined in STNW1174, ...

Wide Area Situation Awareness (WASA) and System Integrity Protection Schemes (SIPS) are gaining more momentum for safe, reliable and stable operation and control of a power grid.

Experience the benchmark in grid protection, automation, and monitoring! SIPROTEC 5, built on extensive field experience, offers comprehensive functionalities and device types for modern ...
