

## Switch with dual redundancy for optical ports

\* Support dual power supply redundancy backup, anti-protection, EMC industrial level 4 electromagnetic anti-interference; \* Support IP40 protection rating, fanless design aluminum alloy metal housing DIN ...

It supports VLAN segmentation and port mirroring for simplified management and ...

RS PRO Managed 16 Port Ethernet Switch, RJ-45 This RS PRO Managed Industrial PoE Ethernet Switch is a highly reliable managed PoE Industrial Ethernet Switch with 16-port 10/100/1000Base-T ...

The foundation of redundancy design lies in dual backup of physical links. Taking the USR-ISG series industrial switches as an example, they support two independent fiber optic accesses, forming ...

The ZL-ISG2F8T series is an unmanaged industrial grade fiber optic switch that supports 2 1000MBase-X optical ports and 8 10/100/1000MBase-T adaptive RJ45 ports.

The TC3340 is a compact Gigabit Switch solution for both industrial automation and commercial networks because it offers a wide range of advanced networking features including Redundancy, ...

It comes with 2 copper cable transmission ports and 2 SFP ports. It provides simple and complex connectivity for multiple Ethernet device, network management, enhanced cyber security and more ...

The hot-swappable design means that power supplies can be replaced without affecting switch operation. Virtual switch stacking allows the switch to be managed from a single IP address and ...

It supports VLAN segmentation and port mirroring for simplified management and maintenance, and also supports LACP (link aggregation, improving uplink redundancy).

\* Support dual power supply redundancy backup, anti-protection, ...

We provide a full line of EtherXtra multi-channel Ethernet over coax (EoC) and Ethernet over UTP (Cat5) extenders, PoE media converters, IGMP multicasting industrial Ethernet switches for IP video ...
