

# What are the models of H3C core switches

The H3C S7500E Series of modular core switches features six chassis models to provide flexibility based on the switching capacity and interface port density required:

H3C S7500X-G series includes a variety of Chassis models, S7510X-G/PoE, S7506X-G/PoE, S7503X-G, and S7503X-M-G, coupled with rich service cards and functionalities, the S7500X-G is well-suited ...

H3C S12500G-AF is a family of new generation AI smart switches designed by H3C for data centers and large-scale smart campuses scenarios. It adopts the advanced CLOS+ orthogonal architecture ...

The H3C S7500X series switch is designed for the next-generation enterprise core networks. It adopts modular design, uses H3C's proprietary operating system Comware V7 and provides the following ...

H3C's Campus Network Core Switches--comprising the S10500X-G Series, S10500X Series, and S10500 Series--stand at the forefront of this transformation, offering unmatched ...

Switches H3C S12500X-AF is a new generation chassis switch product developed by H3C for high-density 40G/100G/400G data center core network applications.

Explore all H3C switches including S9850, S6520X, S5560X, S5130S, S1600V2, and more. High-performance, secure, scalable enterprise networking.

H3C industrial switches can operate in -40°C - 75°C environments for a long time, and use industrial components to reach IP40 rating. At the same time, with shockproof, anti-electromagnetic ...

H3C switches are cost-effective, Comware-based networking devices used in campuses, data centers, and SMBs -- but they differ significantly from Cisco, Huawei, or Arista in management, ...

H3C S10500X-G switch series is a set of Ethernet core switches specifically designed for the core layer of cloud computing data centers and next-generation smart campus.

With a range spanning ten series and hundreds of switches, H3C's options can cover your networking needs - from the data center core to campus access and remote ...
