

Which brands are manufacturers of silicon photonics modules

Discover all relevant Silicon Photonics Companies worldwide, including Analog Photonics and Intel Corporation (UK)

Discover leading photonic chip manufacturers from semiconductor giants to specialized firms. Learn how InP, SiN, and silicon photonics companies are revolutionizing tech.

Enterprises seeking integrated, turnkey modules often turn to Cisco or Acacia. Meanwhile, industrial and telecom players might prefer II-VI or Lumentum for their specialized components.

Chapter 2, to profile the top manufacturers of Silicon Photonics Modules, with price, sales quantity, revenue, and global market share of Silicon Photonics Modules from 2020 to 2025.

The dominant strategies in the silicon photonics industry are vertical specialization and integration. Intel and Cisco are pursuing integration, focusing on merging electronic and photonic components onto ...

For high-volume optics applications, Rockley Photonics is a fabless supplier of silicon photonics chipsets, IP, and custom designs. Rockley's fundamental technological platform was ...

The report examines the convergence of optical and electronic technologies, highlighting how silicon photonics is revolutionizing data centers, telecommunications, sensing applications, and ...

This report lists the top Silicon Photonics companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and identified these brands to be ...

The top 6 silicon photonics companies in 2026, including Cisco Systems, Intel, IBM, NeoPhotonics, Hamamatsu Photonics, and STMicroelectronics globally.

Our Intel® Silicon Photonics Components portfolio offers highly reliable, volume-proven solutions for pluggable data center connectivity. Features include: 400Gbps, 800Gbps, and 1.6Tbps ...
