

# Which manufacturers produce liquid-cooled exchangers

Find your liquid/liquid heat exchanger easily amongst the 505 products from the leading brands (Watlow, BACHILLER, ATTTSU, ...) on DirectIndustry, the industry specialist for your professional purchases.

Our team is well-versed in an extensive selection of fluids, oils and coolants and a wide range of fabrication methods to design and manufacture liquid heat exchangers to enhance your liquid system.

It is the most frequent heat transfer operation in the chemical, pharmaceutical, food, petrochemical and energy industries. The choice of technology is not a catalogue exercise. Each combination of fluids, ...

Its global production and sales network covers 26 countries on five continents. It has an industry-wide portfolio of heat exchanger products, including plate heat exchangers, shell and tube heat ...

Custom manufacturer of industrial and commercial liquid-to-liquid and liquid-to-air heatexchangers. Specifications include 1/8 to 240 tons sizes, 60 to 300 degrees F temperature ...

173 Heat Exchanger Manufacturers in 2026 This section provides an overview for heat exchangers as well as their applications and principles. Also, please take a look at the list of 173 heat exchanger ...

Find top heat exchanger manufacturers and suppliers, that have all types of quality custom systems and many are ASME certified.

We support standard two-fluid designs and advanced, multi-fluid systems for complex thermal management and heat exchange solutions. Conformal heat exchangers adapt to any platform space, ...

Shell and tube liquid-to-liquid heat exchangers are the most widely used type of liquid-to-liquid heat exchanger due to their ability to endure high pressure and high temperature applications.

This directory lists 92 heat exchanger manufacturers across the United States, from specialty fabricators of custom shell-and-tube units to large-scale producers of standard brazed plate and air-cooled designs.
